

## SAHRIS OBJECT PDF REPORT

**Object Code:** JL-C-60

**Quantity:** 1.00

**Cultural Association:**

**Maker:**

**Production Place:** Eastern Cape

### **Description:**

Staff with a flattened circular finial off-set from the top of the shaft. It has inlaid geometric lead designs on the flat sides, and a band of three rows of raised amasumpa designs around the curved rim section as well as a projecting pod-like form made of horn. At the top of the curved rim section, with amasumpa designs on either side, is a hole.
