Object Code: JL-C-65

Quantity: 1.00

Cultural Association:

Maker:

Production Place:

Description:

Staff that has a simian figure clinging to the top as a finial. Halfway between this figure and the next is a spherical bulge in the shaft with two horizontal grooved lines encircling it. Below this in the lower 2/3rds of the shaft are three animal figures (probably dogs) carved so that they appear to be running up the shaft towards the finial.
