

## SAHRIS OBJECT PDF REPORT

**Object Code:** JL-E-40

**Quantity:** 1.00

**Cultural Association:**

**Maker:**

**Production Place:** KwaZulu-Natal

### **Description:**

Rectangular crossbar curves upward slightly towards each narrow end and is decorated with raised ridges at either end. It has two chunky rectangular bifurcated legs at each end. The outside surfaces of the legs are covered with amasumpa (bump/wart) designs in linear rows with a vertical ridge dividing the surface into two zones.
