Object Code: JL-F-11

Quantity: 1.00

Cultural Association:

Maker:

Production Place: Eastern Cape

Description:

Bowl angle back 45 degrees towards mouthpiece end of shaft. A hollow circular shape is joined to the pipe bowl curving downwards from half-way up its length around its base and back to join the opposite side of the bowl. The shaft projects through this circle and ends with two projecting knobs either side of the bowl. These are attached to the circle by a short pillar. The bowl, circle and bulges are all decorated with geometric inlaid metal designs.
