

SAHRIS OBJECT PDF REPORT

Object Code: DNA-BONECOLLECTION-CASEID12274

Quantity: 20.00

Cultural Association:

Maker:

Production Place:

Description:

We propose to sample material for aDNA extraction (and C14 dating where relevant) from human remains (in particular bone and parts of teeth), curated at the Raymond A Dart collection (University of the Witwatersrand). This forms part of a larger initiative to trace the broader population history of southern Africans
