

## SAHRIS OBJECT PDF REPORT

**Object Code:** UP-Skeleton Samples for DNA and C14

**Quantity:** 36.00

**Cultural Association:**

**Maker:**

**Production Place:**

### **Description:**

Sample materials for a DNA extraction (and C14 dating where relevant) from human remains (in particular bone and parts of teeth), curated at the University of Pretoria. This forms part of a larger initiative to trace the broader population history of southern Africans. There are twelve materials with three separate samples thus there are thirty-six items.
