Object Code: JAGP2140

Quantity: 1.00

Cultural Association:

Maker: Claes Oldenburg

Production Place: USA (assumed)

Description:

Shows a large screw, sharp side up, but being bent in double so that the grooves resemble balconies or levels, and the groove in the screw head resembles an entrance. Seems very mobile and elastic, with movement implied through strokes outside of the screw

Provenance:

Purchased from Waddington and Tooth Galleries, London, 1978
