

SAHRIS OBJECT PDF REPORT

Object Code: 84/858

Quantity: 1.00

Cultural Association:

Maker:

Production Place: London

Description:

This trolley is a great convenience in hospital wards as the oxygen cylinders can be moved about rapidly, easily and noiselessly. It is built of seamless steel tubing, enamelled white, and is fitted with a metal basket to hold the tubing and face piece. Material: Metal. Colour: Painted off-white. Maker: Hoskins. Place: England, c. 1925.

Provenance:

Cape Medical Museum
